## CPB ClearPath™ Bollard

### Features and Benefits

### Simple Geometric Form. Harmonized Site Design.

The ClearPath™ Bollard from inVUE® uniquely brings a simple architectural style to pathway applications that delivers exceptional performance while enhancing the fabric of any setting. The safety glass encapsulates the WaveStream™ LED optics presenting a beautiful management of glare for improved visibility, while providing high levels of pathway illumination with the simple artistic form.

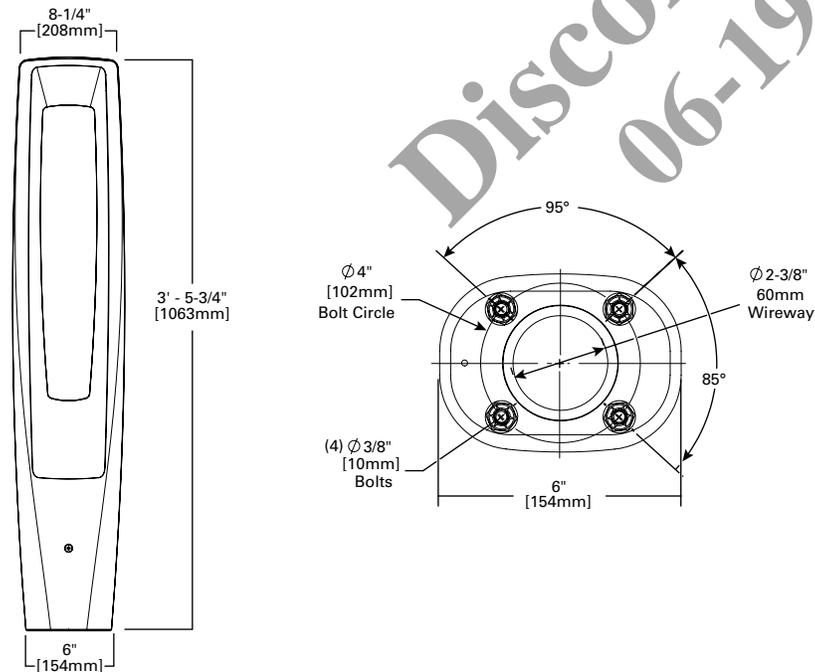

### PRODUCT FEATURES

- Simple yet elegant architectural form
- Three (3) optical distributions
- Safety glass encapsulated, industry leading WaveStream™ optical technology
- Low copper aluminum
- 3000K / 80CRI and 4000K / 70CRI available

### PRODUCT BENEFITS

- Impact resistant tempered glass
- Low glare optical distribution
- Long life, LED technology
- Six (6) standard corrosion resistant durable finishes

### PRODUCT DIMENSIONS

CPB ClearPath™  
Bollard

### QUICK FACTS

- Symmetric, asymmetric, and one-sided asymmetric distribution
- 10kV / 10VKA surge protection standard
- Optional Coastal Construction finish
- Five (5) year warranty
